Dear Ewa,

Thank you for the role you played in making our 2001 Vendor Event a truly memorable one.

I've heard lots of wonderful comments from our vendors about your trick shot show. You did an exceptional job keeping the audience entertained and wowed by your skill. We very much appreciate your willingness to involve several of our key vendors in your performance. Even now, they continue to speak about how much fun they had being able to make a trick shot. Your finale shot, also involving one of our vendors, is one that we will not soon forget.

We also appreciate your willingness to conduct a brief clinic and being available for photos and autographs after the event. I know many of our staff and vendors enjoyed being able to meet you personally and ask questions to help them develop their abilities.

We try to blend business and entertainment at these types of events – providing our vendors with opportunities to learn about the industry and Do it Best Corp. while being entertained. Thanks to your involvement, this event was a huge success!

Please feel free to provide this as a letter of reference for any company considering you for a special event. Thank you once again for your efforts to make our event so memorable.

Sincerely,

Heather Martin
Communications Manager
